

Project Proposal Document

Phase 1: Project Proposal Document

Project Group: Registration Numbers ITT/2024/020, ITT/2024/080

Course: ICT 1209 Web Technologies

1. Selected Theme and Project Title

- **Theme:** Education, Academic Resource Sharing, and Student Collaboration.
- **Project Title:** Student Resource Hub

2. Introduction

Student Resource Hub is a web-based application designed to help university students upload, browse, search, and download academic study materials. The platform provides a centralized location where students can easily share lecture notes, assignments, tutorials, and other educational resources categorized by subject.

The system aims to improve collaboration among students and make learning resources easily accessible anytime and anywhere.

3. Purpose of the Project

The purpose of this project is to develop a user-friendly web application that enables students to share educational resources efficiently. Instead of exchanging notes through social media or messaging apps, students can upload, organize, and access study materials from one centralized platform.

4. Goals of the Web Application

- Provide easy access to academic resources.
- Allow students to upload and share study materials.
- Organize resources using categories and subjects.
- Improve collaboration among students.
- Save time with a powerful search feature.
- Create a secure and user-friendly learning platform.

5. Target Audience

- University Students
- College Students
- Lecturers (Optional)
- Student Organizations

6. List of Planned Features

1. Secure Authentication & User Profiles

Students can register, log in securely, and manage profiles using PHP sessions and hashed passwords.

2. Resource Upload & Management

Upload PDF, DOC/DOCX and PPT/PPTX files with title, subject, category and description.

3. Browse & Search Resources

Browse by category or subject and search by keywords.

4. Resource Download

Download uploaded learning resources.

5. Categorized Resource Library

Resources organized into Programming, Mathematics, Business, Multimedia, Networking and Database.

7. Technology Stack Confirmation

- Frontend UI/UX Design: Figma
- Frontend: HTML5, CSS3, Bootstrap 5, JavaScript
- Backend: PHP
- Database: MySQL
- Version Control: Git & GitHub
- Local Server: XAMPP

8. GitHub Repository Link

Repository URL:

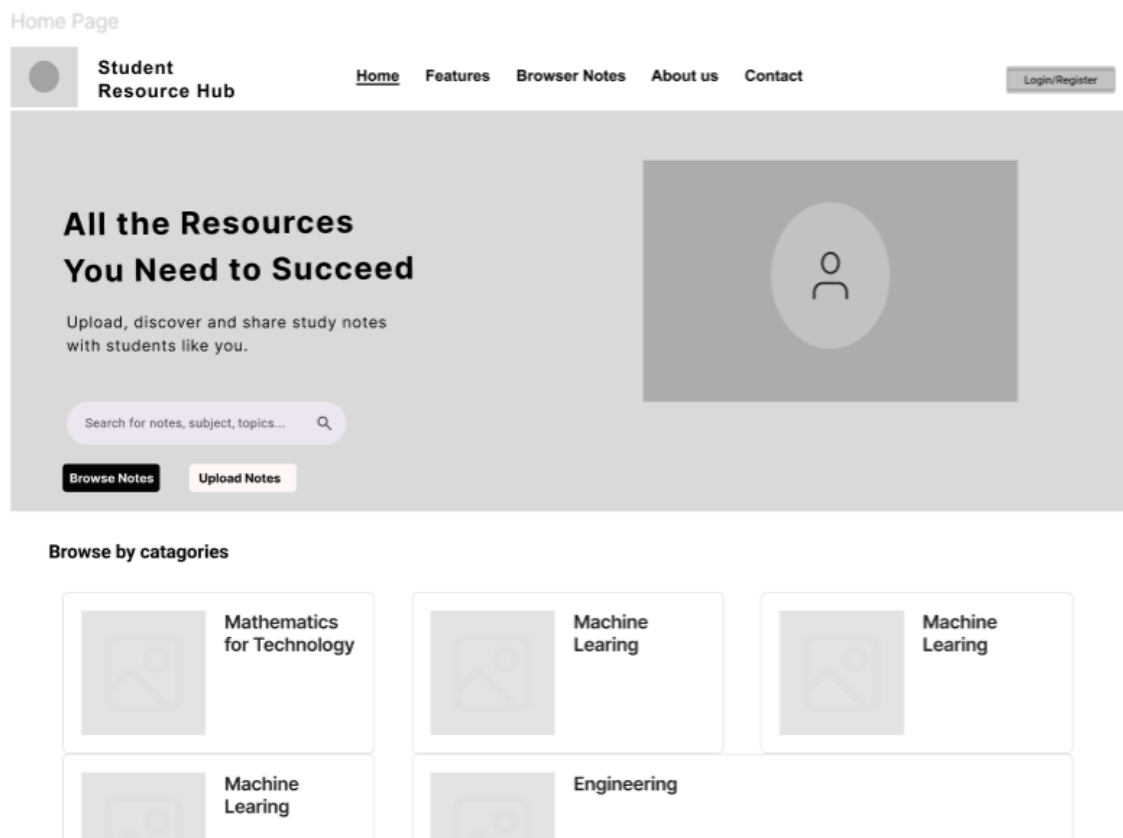

<https://github.com/Amarapriyanjith/Study-connect.git>

9. Wireframes

Below are the foundational wireframes designed for the Student Resource Hub web application.

Home Page

- Navigation Bar
- Hero Banner Section
- Login / Registration Panel
- Search Bar
- Browse by Categories Section
- Quick Action Buttons (Browse Notes / Upload Notes)
- Footer

Login / Registration Interface

- Login Form
- Register Tab
- Email Address Field
- Password Field
- Remember Me Checkbox
- Social Login Options
